western markets was a signal gun. Confusion and demoralization followed. The
better crop outlook in Europe has certainly not helped matters. They say now
that the spring wheat crop in the Northsest is to be 250,000,000 bushels, against

PROVISIONS

Waterland The crop in Russia, Germany and France is more promising. New winter wheat is moving more freely. The hedging sales at Chicago against purchases of new wheat at the West and Southwest have played a conspicuous part in the decline of prices.

Bulls are not extinct, however.

Tou would think they make the state of the constant of the

Bulls are not extinct, however.
Tou would think they were after such rough experience. They admit that as yet the market shows little rallying sower. But the season is late. They argue that something may yet happen to the spring wheat crop. The world's stock of wheat is now only just about as large as it was at this time last year. A few months ago it was far larger. In some foreign countries the crop will be smaller. That is the case in Rumania. Bulgaria, Italy. Spain. Portugal and northern Africa, while in Australia drought is cutting down the acreage. The crop in the Africa, while in Australia drought is cutting down the acreage. The crop in the
United Kingdom will be below the average and bad weather has lowered the
quality of the French crop.

The shipments from foreign countries
fell off rather sharply from those of the
previous week, that is, nearly 4,000,000
p. hels. The shipments thus far this

pabels. The shipments thus far this cason from Russia and Australia show uite a marked decrease as compared ith last season. The American visible upply is nearly 10,000,000 bushels smaller an a year ago. Within a month the fold's stock has been cut down some 2,000,000 bushels.

Russian expects from the southern provfices A reduction in the southern prov-faces A reduction in the supply abroad would offset increase in production here. Whether Europe will consent to this measure remains to be seen but it brings uncertainty to the wheat pit.

Connecticut has to a large extent shared the fate of wheat even if its weakness not been so pronounced. The weather for corn has been in the main favorable. The corn belt has been one vast forcing bed. Temperatures as high as 106 in Kansas have apparently done no harm. Some close observers think the signs point to a diminished consumption of corn in favor of oats, which are observed. d. Temperatures as models of the corn belt mansas have apparently done no ansas have apparently for corn in the depression in wheat, moreover, has condition of the State banks and maturally reacted on corn. Recent rains in Kansas and Oklahoma tended to confirm the bears in their opinions as to the ultimate course of prices. Immense liquidinate course of prices. Immense liqu of a year ago, i. e., 139,000 bushels, against 2,334,000 last year—and the visible supply in the United States is some 5,000,000 bushels smaller than a year ago. There are those who think December corn should be bought or first agents.

RAILROAD ORDERS 12,500 CARS. \$19,000,000 Involved in Canadian Pacific's Expenditure.

The Canadian Pacific Railway Company THE GRAIN MARKETS.

has ordered 12,500 additional freight cars and 300 locomotives. The freight cars will cost \$14,000,000 and the locomotives \$5,-00,000.

Nineteen millions is a pretty big amount for any railway to spend at one time in

WITH AN IRON ROD

The Convering Shorts, However, on the Breline at the September price. The converting Shorts, However, on the Breline at the Convering Shorts, However, and the Breline at the Conversion Shorts and the pected to be a great buying movement in the fall because of the excellent crop outlook, but there promises to be little let up during this month and August. From a number of sources reports have been made that the article in a well known trade journal stating that there is a lull in the trade was not correct. Some companies note an increase in new orders over those placed in June, while others find that there has been very little decrease from the high level of orders booked during that busy month.

The incoming business of the United States Steel Corporation has been running very close to production, and a very small decrease, if any, is looked for in the unfilled tonnage statement for July.

Prices have everywhere been firm with a number of advances noted in minor products, while for plates and structurals premiums of \$1 to \$2 a ton are being charged for prompt deliveries. The plate market is the busiest of any class of the trade, principally due to the great buying movement by the railroads for cars and locomotives, which is increasing rather than abating.

Among the price advances made during the last week are \$2 a ton for black plates and \$3 a ton for galvanized sheets by the Steel Corporation: \$1 to \$2 a ton on spikes by the Jones & Laughlin Company, and \$1 a ton base and \$1 to \$5 a ton on highly finished forms of wire by the American Steel and Wire Company to the United States Steel Company's net income, and this advance in wire prices will mean much to the corporation's earnings. The output of this subsidiary is expected to be close to 2,000,000 tons this year. The advance in wire prices becomes effective to-morrow, and is due to the great demand for wire and wire products growing out of the crop outlook.

The Cambria Steel Company is in such a sold up condition that it has practi-

realing that the control of the cont

the northwestern conditions.

Corn—Liquidation has been very severe during the past week with a sharp drop in prices, especially the near futures. We are niclined to the northwestern conditions.

Corn—Liquidation has been very severe during the past week with a sharp drop in prices, especially the near futures. We are niclined to discovere the way and the northwestern conditions.

Kanasa City—Corn and Wheat Bulletin: No rain twenty-four stations kanasa, the upturn from the low point so far is only its coupled with guarantees of prompt deliveries.

Kati mills are not taking in many large and actor the with some orders. Including 25,000 tons of rails for candian roads, which will be filled in the Dominion after having been before the far coupled with guarantees of prompt deliveries.

The Jones & Laughlin Company made a guarantees of the United States Steel Corporation, which made advances in wages some time ago. There has been a great shortage of labor in the steel district and higher prices have had to be paid for some factor in reducing the prevails and plants. The hot weeks to thirty days little and the prompt of the p

shapes and structurals.

Cast iron pipe makers are so rushed with business that they have made a rule that all quotations are subject to immediate acceptance or they will be withdrawn within twenty-four hours. Pipe prices have advanced 50 cents a ton to \$26 a ton for all sizes from six to twelve inches, with further advances contemplated soon.

Virginia and Pennsylvania pig iron makers have advanced prices from 25 to \$20 cents a ton for several grades of iron.

Virginia and Pennsylvania pig iron makers have advanced prices from 25 to 50 cents a ton for several grades of iron.

Connellsville coke operators have held firmly to their quotation of \$2.50 a ton, and they say that reports that \$2.25 a ton has been accepted on contracts are not true.

THE CHICAGO MARKET.

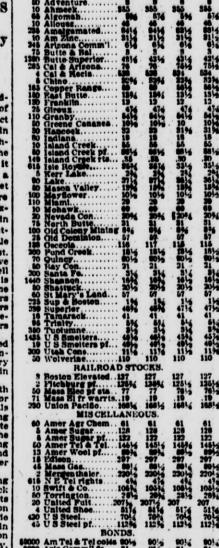

CRICAGO, July 20.—Prices showed a disposition to ease off on moderate pressure. National Biscuit common continues heavy on further liquidation. Sears-Roebuck. Booth Fisheries common and Chicago Pneumatic Tool were easier. Chicago Railway first certificates displayed considerable strength, with the seconds in fair demand. Pleaswhere the trading was light and prices. Elsewhere the trading was light and prices steady. The summary:

THE BOSTON MARKET.

Boston, July 20.—The copper shares market to-day was quiet, with a tendency to react moderately on profit taking sales. Pressure was light, however, and prices for the general list were steady at the close, a small fraction below yesterday's final figures. Copper Range was 1½ off and Lake a point lower. United Fruit sold at 207½ but closed at 207, unchanged from yesterday. Other industrials and rails were extremely quiet. The summary:

THE WEATHER FORECAST

WASHINGTON PREDICTIONS FOR TO-DAY AND TO-MORROW.

For eastern New York, couthern New England and New Jersey, unsettled to-day; showers at night or to-morrow; light to moderate southerly winds.

For northern New England, fair to-day: showers to-morrow; moderate south and southwest winds. NEW YORK, July 21.—The area of high

pressure which was over the lake regions had its centre over the middle Atlantic coas: yesterday and covered all the eastern half of

the country.

It caused still further declines in temperature in New England and the middle Atlantic States, but west of the coast States it was warmer and notably so in the Northwest.
Comparative depressions were central over lower Missouri and the extreme Northwest

and Southwest, but they had no decided depth.

Moderate to heavy rain fell in the upper

Mississippi Valley and westward into the Rocky Mountain States, and showers con-tinued in the cotton States and generally south of the Ohio River.

In this city the day was fair and cooler; wind, fresh southeast to southwest; average humidity, 42 per cent.; barometer, corrected to read to sea level, at 8 A. M., 30.32; 3 P. M., 30.33.
